3.5.9 If the contractor fails to deliver by the specified delivery date, DSS reserves the right to cancel the portion of the order which the contractor has failed to deliver within the specified time and to purchase that item or items elsewhere, charging the increase in price and cost of handling, if any, to the contractor. Presence of any of these conditions will be cause for complete rejection of the delivery.

3.5.12 Damaged Goods Upon Delivery: Shipments containing damaged goods may be either partially accepted by DSS (with damaged goods rejected) or totally rejected by DSS depending on the severity of the damage. The carrier truck driver will bear sole responsibility for any "re-working" of palletized goods for the removal of any damaged goods from acceptable goods. The Using Agency will not be responsible for any additional costs associated with this procedure. This will apply to all carriers and all deliveries. It is the responsibility of the contractor to communicate these requirements to the carriers it employs for deliveries to DSS.

3.5.13 Unloading Time Limit: Once started, the unloading process may not extend beyond a three (3) hour time period due to palletization, re-palletization or re-working of pallets for removal of damaged goods. Partial acceptance or partial rejection may result after this three (3) hour unloading period has expired.

3.5.16 Carton (Case) Marking Requirement: All shipping cartons shall be marked in accordance with Federal Standard No. 123f as amended, and as modified by these terms and conditions. All cartons must be plainly marked on any two adjacent sides so that palletized cartons may be

Contractor/packers will be required to make such records available to the USDA inspector/grader as may be necessary to document and confirm the month and year of pack. General statements, such as a letter from the contractor/packer indicating that the product is of "latest season pack", will not be acceptable unless the month and year of the pack is included in such letter or statement.

3.5.19.2 The bidders awarded contracts for items which require USDA inspection and certification must forward copies of all specifications, terms and conditions and item descriptions from the original specifications to the entity which is preparing the item for inspection, certification and delivery. Failure to forward this information may delay USDA certification and in turn delay delivery to the Using Agency. Failure to comply with this requirement may result in

the filing of a formal complaint against the contractor which then becomes part of the Division's performance database.

3.5.19.3 The bidders signature on the signatory page of this solicitation will verify and acknowledge that the bidder has ready access to and will provide USDA grading, certification and case stamping as required in each line item description.

In the event of a conflict between the provisions of this RFP, including the Special Contractual Terms and the NJ Standard Terms and Conditions version 01 20 06, and any Addendum to this RFP, the Addendum shall govern.

In the event of a conflict between the provisions of this RFP, including any Addendum to this RFP, and the bidder's bid proposal, the RFP and/or the Addendum shall govern.

### **5.2 CONTRACT TERM AND EXTENSION OPTION**

The term of the contract shall be for a period of **six (6) months**. The anticipated "Contract Effective Date" is provided on the signatory page of this RFP:

<http://www.state.nj.us/treasury/purchase/bid/summary/06x38757.shtml>. **DSS is** authorized to order and **the contractor/contractors is/are** authorized to ship only those items covered by the contracts resulting from this RFP. If a review of orders placed by DSS reveals that material other than that covered by the contract has been ordered and delivered, such delivery shall be a violation of the terms of the contract and may be considered by the Director as a basis to terminate the contract and/or as a basis not to award the contractor a subsequent contract. The Director may take such steps as are necessary to have the items returned by DSS, regardless of the time between the date of delivery and discovery of the violation. In such event, the contractor shall reimburse the State the full purchase price.

The contract involves items which are necessary for the continuation of ongoing critical State services. Any delay in delivery of these items would disrupt State services and would force the State to immediately seek alternative sources of supply on an emergency basis. Timely delivery is critical to meeting the State's ongoing needs.

## 5.6 REMEDIES FOR FAILURE TO COMPLY WITH MATERIAL CONTRACT REQUIREMENTS

In the event that the contractor fails to comply with any material contract requirements, the Director may take steps to terminate the contract in accordance with the State administrative code and/or authorize the delivery of contract items by any available means, with the difference between the price paid and the defaulting contractor's price either being deducted from any monies due the defaulting contractor or being an obligation owed the State by the defaulting contractor.

### **6.2 ORAL PRESENTATION AND/OR CLARIFICATION OF BID PROPOSAL**

Prior to contract award and with the exception of scheduling a review of submitted bids, unless requested by the State, contact with the State is limited to status inquiries only and such inquiries are only to be directed to the buyer. Any further contact or information about the proposal with the buyer or any other State official connected with the solicitation will be considered an impermissible supplementation of the bidder's bid proposal.

The bidder may be required to give an oral presentation to the State concerning its bid proposal. The State may also require the bidder to submit written responses to questions regarding its bid proposal.

The purpose of such communication with the bidder, either through an oral presentation or a letter of clarification, is to provide an opportunity for the bidder to clarify or elaborate on its bid proposal. Original bid proposals submitted, however, cannot be supplemented, changed, or corrected in any way. No comments regarding other bid proposals are permitted. Bidders may not attend presentations made by their competitors.

It is within the State's discretion whether to require the bidder to give an oral presentation or require the bidder to submit written responses to questions regarding its bid proposal. Action by the State in this regard should not be construed to imply acceptance or rejection of a bid proposal. The Purchase Bureau buyer will be the sole point of contact regarding any request for an oral presentation or clarification.

### **6.3 BID DISCREPANCIES**

In evaluating bids:

- Discrepancies between words and figures will be resolved in favor of words.
- Discrepancies between unit prices and totals of unit prices will be resolved in favor of unit prices.
- Discrepancies in the multiplication of units of work and unit prices will be resolved in favor of the unit prices.
- Discrepancies between the indicated total of multiplied unit prices and units of work and the actual total will be resolved in favor of the actual total.
- Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the corrected sum of the column of figures.

### **6.4 NEGOTIATION AND BEST AND FINAL OFFER (BAFO)**

Following the opening of bid proposals, the State reserves the right, pursuant to N.J.S.A. 52:34-12(f), to negotiate: the technical services offered, the terms and conditions and/or the price of a proposed contract award with any bidder and reserves the right to seek a Best and Final Offer (BAFO) from one or more bidders. In response to the State's request to negotiate, the bidder must continue to satisfy all mandatory RFP requirements but may improve upon their original technical proposal in any revised technical proposal. However, any revised technical proposal that does not continue to satisfy all mandatory requirements will be rejected as non-responsive and the original technical proposal will be used for any further evaluation purposes, in accordance with the following procedure:

The State will conduct an initial review and determine whether and with which bidder(s) it will negotiate, and will communicate its request to each such bidder. In response, the bidder will submit any required revisions to its proposal.

In response to the State's request for a BAFO, the bidder may submit a revised price proposal that is equal to or lower in price than its original submission, but must continue to satisfy all mandatory requirements.

After receipt of the results of the negotiation and/or the BAFO(s), the State will complete its evaluation and recommend to the Director for award that responsible bidder(s) whose bid proposal, conforming to this RFP, is most advantageous to the State, price and other factors considered.

All contacts, records of initial evaluations, any correspondence with bidders related to any request for negotiation or BAFO, any revised technical and/or price proposals, the State's evaluation and the Award Recommendation, will remain confidential until an Intent to Award notice is issued.
